

Year 6 Home Learning Summer 1

Our Year 6 weekly home learning expectations are:-

Read your school reading book five times per week.

Develop your times tables fluency using Times Table Rockstars

Learn your spellings each week.

You will also be given up to 3 home learning tasks a week for each SATs practice book which you will need to complete.

You are also expected to complete at least one of these projects which you will bring in to present to the class.

The deadline for these to be in school is Wednesday 22nd May 2024.

English

Create a comic strip of a person arriving in an unfamiliar environment. What will they see? Where do they go? Who do they meet? How are they feeling?

Geography

Research and create a presentation (either as a poster or on PowerPoint) about a well-known earthquake, e.g. San-Francisco, Japan, Turkey.

Explain why it happened, the destruction it caused and what has been done since to help reduce the damage of any future earthquakes in that area. Also, remember to give key facts such as measurement on Mercalli Scale, etc.

Maths

Create your own SATs revision guide suitable for Year 6. Think carefully about the essential knowledge that will help the next Year 6 pupils survive SATs – ask your teacher if you want to!

Explain, give examples and provide sample questions for the different concepts you have learnt about.

Science/ Design and Technology

Create a musical instrument. Consider carefully how it will produce sound. How will the sound be manipulated?
