

Year 2 Home Learning Autumn 1

Our Year 2 weekly home learning expectations are:-

Read your e-book/school reading book five times per week.

Frequently use Numbots to develop number sense and fluency. When confident with X2, children can access Times Tables Rockstars.

You are also expected to complete at least one of these projects which you will bring in to present to the class throughout the week.

The deadline for these to be in school is Monday 16th October 2023.

Maths

Practise your number bonds to 10 (20 if you are confident). Can you write a rhyme to help you remember them? (i.e. five add five, swim and dive, six add four knock on the door).

or

Design and create a times tables (x2, x5, x10) or number bonds game which will support the class to learn their times tables

English

Take inspiration from our text driver 'Little Red Riding Hood' create a story from the wolf's point of view.

Geography

Through your own research and your learning in the classroom, create a simple fact file about Utah. This could be created as a poster, booklet or a simple PowerPoint presentation.

Science

Learn about the life-cycles of different animals and record these.

or

Using your imagination...
