

Year 2 Home Learning Spring 1

Please see below the home learning for Spring 1, the aim is for at least one of these projects to be completed and presented to the class. Deadline for these to be in school is Monday 5th February 2024.

Remember you should also be reading to an adult at least five times a week too.

Maths

Please keep practising your 2s, 5s, and 10s times tables.

Our main themes are time and mass in Spring 1. As part of your homework you could make a clock with hands that move using card (for the hands), a paper plate and split pins.

Geography

Our learning is based around the book 'Hike' by Pete Oswald. For your homework write a short paragraph about where you would like to travel to for a 'hike'. Try to give a reason (using the conjunction 'because') explaining why you would want to travel there. Then write a list of equipment you'd need to take.

English

For our 'Frozen Planet' topic please make an artic animal puppet using materials you have at home (paper plates, card, paper etc). Here are some examples of what you could create.

Science

We are continuing with our materials topic. For your homework make a 'cold' (i.e. snow, ice, the Arctic) collage using different materials from home. Other mediums could also be used i.e. pencil, chalk, pen or paint.

Here is an example but please use your creativity, the example does not need to be replicated.
