

# Year 3 Home Learning Autumn 2

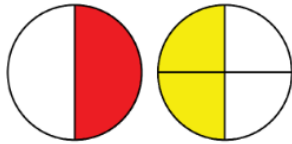

Our Year 3 weekly home learning expectations are:-

Read your school reading book five times per week.  
Develop your times tables fluency using Times Table Rockstars  
Learn your spellings each week.

You are also expected to complete at least one of these projects which you will bring in to present to the class.  
The deadline for these to be in school is Monday 11<sup>th</sup> December 2023

## Maths

Create a fractions and equivalent fraction information poster.

## English

Create your own 'Giant' adventure story. What setting will you choose? Will your giant be kind like the BFG? Or will they be evil? Think carefully about your beginning, middle and end. Try to use descriptive vocabulary to really help your classmates picture your story!

## Geography

Create a Brighton Hill information leaflet. What are the 'must see' sights of our local area? Is there any useful information that tourists might need to know? You could include maps and directions to help people find their way around!

## D&T

Choose either:

Cooking/ Food – Design and make a new healthy snack – take photographs of the finished product. Evaluate – Was it as delicious as you hoped? What would you do to improve it next time?

Cross stitch/ Applique – Using the sewing skills you have been learning create your own winter picture made from different fabrics or cross stitch.
