

Year 6 Home Learning Autumn 1

Our Year 6 weekly home learning expectations are:-

Read your school reading book five times per week.

Develop your times tables fluency using Times Table Rockstars

Learn your spellings each week.

Extra Maths practise may also be given out when necessary to consolidate concepts taught during the week.

You are also expected to complete at least one of these projects which you will bring in to present to the class.

The deadline for these to be in school is Monday 16th October 2023.

English

Take inspiration from our 'Titanium' text driver. Find a music video of your choosing that tells a story and write a recount from the perspective of one of the characters.

Geography

Create a poster about an aspect of Brazilian culture that interests you. For example: food, sport, it's history, etc.

Art

Complete a photography project using your local area as inspiration. It could include significant landmarks as well as people as the subjects of your photos. Display your photographs as a poster or using PowerPoint.

Science

Linked to our topic of light, you could research how to and create one of the following:

- A kaleidoscope
- A periscope
